

## CELEBRATION OF INDEPENDENCE BY MEXICANS

Biggest Parade Ever Held in City of Mexico Marches Through Streets in Cold, Drizzling Rain.

### PATRIOTIC MUSIC AND SPEECHMAKING

Volunteer Soldiers and Students Out in Force and Are Stirred to Excesses of Enthusiasm.

MEXICO CITY, Sept. 16.—In spite of the rumors which dealt impartially with attacks upon Americans, an army uprising and the assassination of the president, independence day came and went with nothing to mar the holiday spirit.

Politically the great event was the reopening of congress and the reading of the president's message. But without doubt General Huerta was moved less by that than by the spectacle of thousands of students, citizens and soldiers doing him honor as he stood on the balcony of the national palace reviewing the great parade, the feature in which public interest centered.

### Thousands in Parade.

More than 4000 volunteers and students, ranging in age from 12 years upwards, had their first taste of military discomfort, standing for hours in drizzling rain and plodding through muddy streets. They bore the hardships manfully, however, marching proudly between dense lines of onlookers, through the principal business streets, past the palace and to various points where they disbanded.

It is estimated that close to 10,000 marchers passed in review. They included 1000 of Blanquet's veterans, who did hard service in the Zapata country, regular and volunteer cavalry and infantry, rurales, mounted and foot police, artillery, cadets and hospital corps. Next to the students and volunteers, who received the most enthusiastic applause were several ambulance automobiles, filled with white gownned young women of the Red Cross hospital service.

Along the line of march the air was filled with flowers and confetti showered upon those who marched.

### Applause for Huerta.

President Huerta and his aides, riding through the streets after the conclusion of the early ceremonies at Chapultepec were greeted with wild applause. The president's greatest triumph appeared to be at his reception at the joint session of the deputies and senators, when he entered to read his message. He was greeted with vivas both by the crowd surrounding the chamber and that which filled the hall. Six o'clock was the hour set for the formal opening of the session and a presidential salute of twenty-one guns was fired. Prompt to the minute the executive mounted the steps of the building, stopping only an instant at the doors to bow his acknowledgments. The city was ablaze with strings of incandescent lights tonight. All public buildings were profusely decorated. Crowds filled the Zocalo in front of the national palace, while other crowds wandered noisily about the streets, tooting horns and making the most of the expiring holiday.

### INVESTIGATE CHARGES OF AMERICAN AID

CARRIZO SPRINGS, Tex., Sept. 16.—Investigating the underground route for "gun running" from San Antonio to the Mexican border, Robert L. Barnes, acting special agent for the department of justice, said today that so far only one man of prominence in southwest Texas is suspected of implication in the smuggling. Several Americans were implicated in assertions of Charles Cline, American leader of the band of thirteen Mexican smugglers under arrest here.

Barnes declined to reveal the identity of any suspects except the four already under arrest. The four are Casimiro Cruz, Juan Galan, Antonio and Placido Reyes.

The alleged connection of Industrial Workers of the World with a new movement in the revolution in northern Mexico was further investigated today. Five prisoners claimed to be members of the order, including the American, Charles Cline, whose card showed affiliation with the St. Louis local. His correspondence with Jay Smith indicated that Smith's headquarters were in New Orleans and his official title "financial secretary of the southern district."

J. M. Rangel, one of the prisoners, and not Cline, is declared to have been the actual leader of the smugglers. Rangel said today that Zapata for two months, as head of the I. W. W. in Mexico, has been spreading the organization's propaganda in northern Mexico.

### Theft of Ammunition.

EL PASO, Texas, Sept. 16.—The theft of 4400 rounds of ammunition from the United States customs house here was discovered today. Federal agents removing ammunition recently seized from smugglers to be sent to Fort Bliss found that the basement of the customs house had been entered and the 4400 rounds taken away.

### Families Are Safe.

EAGLE PASS, Texas, Sept. 16.—The families of Thomas Taylor, American,

## PRESIDENT WILSON REMAINS TO DESK

Holds Important Conferences and Receives Several Hundred Visitors.

WASHINGTON, Sept. 16.—President Wilson returned from Cornish, N. H., today on a train that was an hour late, and was driven at once to the White house. The president returned to his desk to find the administration currency bill well on its way through the house, with the Democratic majority holding it firm against attacks so far, and the differences between the house and senate well on the way to settlement.

Outwardly the most pressing question in the president's mind was whether a congratulatory message should be dispatched to Mexico City on the occasion of the one hundred and third anniversary of Mexican independence and to whom it should be addressed.

The first thing the president did was to receive several hundred delegates to the International Congress on Refrigeration. The long line passed through the president's room in the executive offices, where the president shook hands with all, but made no speech.

Secretary Bryan had a conference on Mexico, while Secretary McAdoo had an engagement to talk over the collection of the port of Boston. It was not expected that any final action would be taken on the collection until the president had conferred with Massachusetts members of congress, with whom he has engagements tomorrow.

Secretary McAdoo declined to discuss his conference with the president, but it was understood that Edmund Billings probably would be nominated tomorrow for the collection after the president discussed the appointment with the Massachusetts congressional delegation.

## PRESIDENT HUERTA DELIVERS MESSAGE

(Continued from Page One.)

relations with them or that their replies have already been announced through the proper channels and did not reach the chancellery. It has caused surprise and at the same time regret to the honorable chamber, as to the executive, that some of the countries to which Mexico is united by ties of blood, language and customs, and no less by identical aspirations, and destinies, have not vouchsafed a reply to the letter.

The executive is ignorant of the causes which may have prompted this conduct, and it certainly may be entirely worthy of respect. He abstains from endeavoring to learn, and contents himself with putting the result before your honorable body.

### Talks of Battleships.

There have been sent to our ports various foreign battleships, the object, it is said, of extending protection, if that should be necessary, to the lives and interests of the citizens, and of the objects of this question by reason of the state of insecurity, it is presumed growing out of the revolution. In view of this declaration, in foreign relations, I entered into correspondence with certain foreign diplomats, calling attention to the action of their respective governments, and upon receiving due explanations dictated orders towards the fulfillment of the law in such cases.

Since the law prohibited warships from remaining for more than a month in territorial waters, the senate authorized the said ships to remain, but with the understanding that those remaining should not entail an attack upon the dignity and sovereignty of Mexico. Such authorization limited them to a period of six months, dating from April 25 last, and it was not thought advisable to renew this authorization upon its approaching expiration. Other ships, which made visits of courtesy and not of vigilance, have been received by the Mexican authorities according to international laws and customs.

### Report Made on Funds.

Of the treasury funds, amounting at the beginning of the year to \$2,500,000, \$2,400,000, he said, had been expended for the pacification of the country. Of the loan of \$100,000,000 authorized in 1912, French bankers took \$10,000,000 at 90. Out of this Speyer & Co. had repaid \$20,000,000, half of which was a loan to the national treasury and had been repaid by the government. For the army, 6000 horses and 2300 mules had been purchased during the year. The national cartridge factory, he said, was turning out 250,000 cartridges monthly.

Besides a great number of cannon of various calibers, machine guns, rifles, carbines and ammunition, the government has contracted abroad for ten aeroplanes, seventy-seven armored automobiles and fifty unarmed automobiles and two armed transports.

### PRIMARY ELECTIONS HELD IN NEW YORK

By International News Service.

NEW YORK, Sept. 16.—John Purroy Mitchel, head of the fusion ticket, and Edward E. McCall, with the Tammany ticket, carried the primaries today with practically no opposition to either ticket in any part of the city. In the Independence League primaries there were lively contests for places on judicial tickets and for the fusion ticket. Late tonight friends of Judge Warren Foster, Democratic candidate for judge of the court of general sessions, who sought the league nomination, and Robert L. Luce, Democratic nominee for judge of the city court, claimed they had carried the league primaries against Charles C. Smith and William R. Hanson, the fusion nominees named by the league designating committees.

The vote throughout the entire city was light.

and Joseph Shone, Englishman, were reported to have been shot today at Matamoros, Mexico. They had been stranded on a desert in Western Coahuila, while their husbands were federal prisoners in Conclava. Nothing had been heard from the prisoners.

### Reout Insult to Flag.

DOUGLAS, Ariz., Sept. 16.—Three American cowboys rode into Pirtleville, Ariz., today and roped and hauled down a pole from which flew a Mexican flag. Hearing that their national banner had been dragged in the dust on the anniversary of Mexican independence, a mob of 250 Mexicans congregated in front of a saloon into which the cowboys had retreated.

A riot call was sent to Douglas and police from here aided in dispersing the mob without serious consequences. The cowboys escaped. It is said warrants would be issued for their arrest.

The Mexican flag was raised again and beside it two smaller American flags were placed as a protection against a recurrence of the incident.

## SCHMIDT CASE IS STILL BEING PROBED

(Continued from Page One.)

was to be devoted to bettering the condition of the poor of Germany. These explanations of his acts, the detectives contend, merely are in line with his prearranged plan to appear insane, while at the same time telling his attorney that he is sane.

Chief Flynn of the secret service, after viewing the prisoners and the counterfeiting plant, said: "The priest and the dentist resemble and nearly answer the description of two men who have recently passed counterfeit \$20 bills in Boston, New Haven and other neighboring cities."

Those spurious bills, circulated in New England, first came to the attention of the secret service men on April 27, 1912. The treasury department sent out the usual notice of warning. Recently the check letter and plate number appearing on these bills was changed, and on August 28 last the treasury department issued another warning notifying banks of this change.

### Hereditarily Abnormal.

ASCHAFFENBURG, Germany, Sept. 16.—The parents of the Rev. Johannes Schmidt, confessed murderer of Anna Ammiller, declared today that the young priest is hereditarily abnormal. Several members of the family are confined in asylums for the demented and there have been four suicides in the family within five years.

The letters sent home by the young priest are said by his relatives to be written in a confused and hazy style. Local physicians consider that the murderers' perverted instincts were accentuated by forced study.

It is known that he resorted to forged certificates even during his boyhood and by this means was enabled to enter the classical high school at Mainz, where he was arrested. He was arrested and charged with the offense, but released by the court as weak-minded and irresponsible.

### Afraid of the Slayer.

NEW YORK, Sept. 16.—Thomas J. Messner, Schmidt's cellmate in murderers' row, pleaded so hard with the prison officials to be placed in another cell that they acceded to his request today. Messner said that Schmidt stared at him so strangely he could not sleep.

Continuing their search of Muret's flat, detectives found this afternoon evidences that the occupant had planned to make not only spurious dollar bills, but five-dollar and ten-dollar certificates.

In the camera in the flat was a powerful lens, capable of faithfully reproducing the half-like details of engraving on genuine bills. A great many negatives of \$5 and \$10 bills were found in a closet. Many of these negatives had been brought to the honorable chamber, and were intact. The detective also found engravers' tools.

## SECOND ATTEMPT ON GENERAL OTIS'S LIFE

(Continued from Page One.)

tion, "to celebrate merely the anniversary of Mexican independence without regard to the positions of contending factions in that country. Many others, however, desired to be partisan in the death, it was reported to the police department, were made against several who therefore remained out of the parade.

"It is possible that some of the disgruntled Mexicans sought to kill the newspaper man whom they believed to be General Otis."

General Otis, who is a close friend of former President Porfirio Diaz of Mexico, owns large acreage in the southern republic. He is largely interested in the California and Mexico Ranch and Cattle company, which owns great tracts in Lower California and Sonora.

Reports from Yuma, Ariz., today, were to the effect that a band of fifty insurgents who arrived yesterday at Colonia, on the east bank of the Colorado river, fifty miles south of Yuma, had declared their intention to "clean up" all the California and Mexico Ranch and Cattle company holdings.

### Army Orders.

WASHINGTON, Sept. 16.—Lieutenant Colonel T. R. Rivers, tenth cavalry, upon completion present duties at Winchester, Ontario, N. Y., and will proceed to Fort Riley for duty at Mounted School.

By direction of the president, First Lieutenant Truman D. Thorpe, retired, is detailed as professor of military science at the Westworth military academy, at Lexington, Mo.

Capt. Wallace M. Cradle, quartermaster corps, is relieved from duty at Houston, Texas, and will proceed to Fort Ethan Allen, Vermont, for duty relieving Major Edward W. Evans, quartermaster corps.

Orders of September 11, relating to Capt. George E. Stewart and Major Edward W. Evans, quartermaster corps, are revoked.

Capt. George E. Stewart, quartermaster corps, is relieved from duty at Fort Sam Houston, Texas, for duty.

Changes in corps of engineers ordered: First Lieutenant William H. Sage, Jr., will proceed to Fort Leavenworth, temporary duty, to Third battalion of engineers. First Lieutenant John C. H. Lee will proceed to Fort Leavenworth, temporary duty, to Third battalion of engineers.

First Lieutenant Albert R. Lyman is relieved from duty First battalion of engineers and will proceed to Honolulu for duty with Third battalion of engineers.

Capt. Fred T. Austin, Third field artillery, is relieved from detail as member of board of officers appointed for purpose of conducting test of automatic machine rifles.

### HAS BIRTHDAY FEAST WITH HIS EMPLOYEES

GLACIER PARK, Mont., Sept. 16.—With 340 of his veteran employees, J. J. Hill, builder of the Great Northern railway, partook of his seventy-fifth birthday dinner here tonight. The men who dined with Mr. Hill have been in his employ for twenty-five years or more and many of them for more than forty years. The veterans presented to Mr. Hill a bouquet containing seventy-five American Beauty roses.

## COTTON AMENDMENT TO BE CONSIDERED

Modification of Schedule on Futures to Come Before Tariff Committee.

WASHINGTON, Sept. 16.—Modification of the senate's cotton futures tax amendment to the tariff bill to make the provision acceptable to the house, will be considered by the tariff conference committee within a day or two. Informal discussion of the subject has developed the fact that the house probably would accept the plan of taxing trades in cotton futures, if the terms of the Clarke amendment adopted by the senate were modified.

A substitute for the Clarke amendment submitted to the conferees today by Representative Lever of South Carolina, chairman of the house committee on agriculture, would provide that the tax of one-tenth of a cent per pound, or 50 cents per bale, should not be assessed where the cotton contracts call for the regular government grades and such grades actually are delivered; or where the difference in price is paid if another grade is delivered. This and other changes will be considered, in the belief that the cotton futures amendment finally will be retained as a regulatory provision, as well as a revenue raising feature.

The tariff conferees pushed through the sundries schedule of the tariff bill today, reaching agreement on most of its provisions. The difference between house and senate over hats, photographic films, works of art, furs and several other important items were left for later action. The house members accepted the senate amendments putting gun powder and fulminates on the free list, making changes in the method of assessing duties on lace and putting harness and saddlery on the free list.

The senate receded from its amendment putting chamois, calf skins and similar leathers on the free list and accepted the house rate of 15 per cent. The senate also consented to a reduction in the rate it had fixed on gloves.

Chairman Underwood of the house conferees, expressed the belief tonight that there would be no great differences between the members of the two houses over the income tax section, where the senate materially increased the rates of tax in the method of assessing duties on lace and putting harness and saddlery on the free list. The senate also consented to a reduction in the rate it had fixed on gloves.

## WILL NOT REINSTATE PHILADELPHIA CARMEN

(Continued from Page One.)

tion, and it was predicted last night that most of them would be re-elected without much opposition.

The salary of President W. D. Mahor was yesterday increased in spite of his own protest, from \$5000 to \$6000 per year. Salaries of other international officers from \$7 to \$9 per day, and local organizers from \$5 to \$6 per day.

The convention yesterday rejected a resolution making any member of the international association who became a member of the state militia or other military organization ineligible to receive benefits in cases of illness or disability. The opposition to the proposed resolution was led by Secretary R. Reeves.

A sharp contest over the selection of the next convention city, which will probably be the last order of business before adjournment today, was forecasted in the number of invitations read to the convention yesterday. The cities in the race for the 1915 convention are Oakland, Rochester, Niagara Falls, Cleveland, Boston, Shreveport, La., and Louisville. Delegates last night were of the opinion that the convention would go either to Oakland or Boston.

Because of the desire of many to attend the Panama-Pacific exposition in San Francisco in 1915 those who desire the convention for Oakland have much support.

## ADOPTED DAUGHTER IGNORED IN WILL

By International News Service.

NEW YORK, Sept. 16.—The will of the late Timothy D. Sullivan, which was made public today by his lawyers, leaves an estate valued at about \$2,000,000. Since the will was made two of the beneficiaries have died—Helen Sullivan, his wife, and Mary Ann Summers, his sister. The entire estate now goes in equal shares to his brother, Patrick H. Sullivan; his half brother, Lawrence Mulligan; his half sister, Mrs. Margaret Hickey, and to the children of his deceased sister, Mrs. Summers.

Considerable surprise was manifested when it became known that no mention was made in the will of the representative's adopted daughter, who announced after the reading of the will that she would bring suit for part of the estate.

## CONDITIONAL AWARDS FOR NAVY ADDITIONS

WASHINGTON, Sept. 16.—Secretary Daniels made conditional award today of the contracts for six new torpedo-boat destroyers, numbers 57 to 62, as follows: Two vessels to the New York Shipbuilding company at \$825,000 each; two to William Cramp & Sons Ship and Engine Building company, Philadelphia, at \$831,000 each; one to the Fore River Shipbuilding corporation, Quincy, Mass., at \$861,000; and one to the Bath, Me., Iron works, at \$854,000.

The vessels are to be the largest of their class yet designed. They will mark a decided advance in radius of action at high speed. Increased space has been assigned for the living accommodations of both crew and officers.

The destroyers will be 310 feet long, 22 feet 10 inches beam, 9 feet 2 inches draft and 1690 tons displacement. They will be oil burners exclusively and will be propelled by steam turbines.

With more than half a million dollars already saved to the government through competition on contracts for materials for battleship No. 23, Secretary Daniels announced tonight he had notified the Midvale, Carnegie and Bethlehem steel companies that he would not accept either of their recently submitted identical bids for heavy armor plate for this vessel unless they could show him the cost of production figures to justify their prices.

"I feel sure that congress will not fail to back up the department in whatever steps seem best to obtain armor at a just price," the secretary said.

The three companies named have the only plants in this country capable of turning out the heaviest grade of armor plate. Mr. Daniels urges the establishment of a government armor factory.

## PENNSYLVANIA HOLDS STATEWIDE PRIMARY

PHILADELPHIA, Sept. 16.—Returns from the first statewide primary election in Pennsylvania for the nomination of four candidates for the state superior court showed that James Alcorn of Philadelphia, Oliver B. Dickinson, Delaware county, Webster B. Grim, Bucks county, Judge John J. Henderson, Crawford county, and John W. Kephart, Cambria county, were among the leading fifteen candidates for the nomination.

All the candidates are named on a non-partisan ballot and two of the four nominees will be elected in November.
